

Job Description

Title: International Director

Background: The Scripture Union Global Community is made up of Movements around the world (currently 130+), who share the same mission, as expressed in the Aims, Belief and Working Principles. The role of Scripture Union International (SUI) is to support the national movements, articulating the vision, assisting development both within and between the national movements and through expansion, providing a global identity, fundraising, establishing and maintaining international partnerships. It is the custodian of the Aims, Belief and Working Principles to which all movements subscribe, and the decision making body in the areas of global strategy and management.

Following the Living Hope process and gathering in 2012, the structure and modus operandi of SUI was reviewed and the International Council in 2014, affirmed a change in operational framework, as outlined in the Jackson's Point Accord (copy attached). In the years since, the existing regional structures have been gradually dismantled and are being replaced by less rigid, more collaborative relationships where each movement has a direct relationship with SUI and also has a community based relationship with other movements. The current International Executive will be replaced by a Global Board, to be appointed in 2017.

The current International Director is due to retire in 2017 and SUI now wishes to appoint a suitably qualified person to complete the ongoing implementation to the new framework and lead the global Movement into the future.

Purpose: To lead Scripture Union International in its roles of:

- holding and developing its vision and providing leadership for the Global Team,
- fostering and providing strategic planning,
- delivering the Board's strategy on fundraising to ensure the financial stability of the organisation.
- ensuring effective communication.

Accountability: To the Global Board (or whatever subsidiary structures it may establish for the purpose).

Location: As there is no global headquarters, the candidate selected may be based in his/her current area of residence, depending on good Internet service and adequate access to an international airport.

Salary: Salary will be appropriate to the area of the world where the person is based. Travel and other work related expenses will be reimbursed

Jacksons Point Accord – attached

Jackson's Point Accord:

Towards Interdependence

Based on Global Framework Paper 3 and the deliberations of an expanded Scripture Union International Council held at Jackson's Point, Ontario Canada 19 to 22 September 2014.

We have:

- engaged in the *Living Hope* process, since 2012, of listening to God, and each other globally, about the vision and future of the global Scripture Union movement;
- considered Global Framework Paper 3 developed after extensive consultation in each region of the world;
- reflected on paper 3 and the written comments about the Paper received from SU movements around the world; and
- individually and together sought God for His guidance, wisdom and grace.

Therefore, we make the following resolution as a Council:

1. (Our mission as a movement)

We have a mission, which is stated in the SU International Aims, Beliefs and Working Principles and affirmed at the *Living Hope* Event in November 2012. Ultimately, what we do as SU movements and as a global SU community is an outworking of those Aims, Beliefs and Working Principles. They define us locally and globally.

2. (Our affirmation of SU movements)

We affirm the vital role of SU movements in carrying out SU ministry locally, building local leadership, developing local financial capacity, working with the local Christian church and meeting the requirements of local culture, conditions and laws. We seek to strengthen local SU ministry, not undermine or diminish it.

3. (Our vision of Interdependence)

As a global movement, united by our SU name and logo (in their various forms), we are all affected and enriched by each other. We want to see SU ministry around the world strong and growing, through support and collaboration between movements, facilitated by a SU global board and team.

4. (Our affirmation of the SU global board)

We affirm the role of an SU global board and team in facilitating

development and supporting the work of SU movements, maintaining good stewardship of the SU name, logo and reputation, guiding and advising as needed, and promoting the work of the Scripture Union movement globally, as reflected in the Aims, Beliefs and Working Principles.

5. (Our journey towards new collaborative structures)

We recognise we are in a changing world and need a global framework to enable us to meet each other's needs, and to fulfil our mission. While we have not yet arrived at our destination, we are on a journey together towards new arrangements so that SU movements can connect with and support each other, coordinated by an SU global board and team which will involve:

- a) community groups and networks, as a way to engage strategically, collaborate, train staff and volunteers, grow together spiritually, participate in global consultation and support each other;
- b) sharing stories, resources and information, for prayer, encouragement and support;
- c) partnership, companionship or accompaniment, as agreed between particular SU movements;
- d) a new team of field development personnel;
- e) the enhancement of global capacity, particularly for communications and fund development; and
- f) a global gathering of chairpersons and key leaders each six years, for strategic purposes.

6. (Supporting the SU community financially)

We recognise movements' financial constraints and the need for the SU movement at every level to seek new sources of income. However, we also recognise that our vision of interdependence will require greater financial support from SU movements over time.

7. (Transition)

While our international and regional structures served us in the past and continue to serve in some respects, we resolve to engage in a process of transition to a new collaborative model. This will require that:

- a) a transition team continues, respectfully and sensitively, to work through any concerns or difficulties held by any SU movement;
- b) the current regions and regional director roles will be transitioned-out, and community groups and field development personnel transitioned-in, each in accordance with an agreed transition plan, as funding permits;
- c) a new paper will be circulated to the SU International Council and then SU movements by end of 2014, taking account of the written comments about Paper 3 received from around the world and the discussion at Jackson's Point;
- d) a Covenant of Interdependence will be produced, bearing in mind the feedback received on Paper 3 and the discussion at Jackson's Point, and sent to SU movements by mid 2015 (for formal commitment in 2017);
- e) arrangements to elect a new SU global board, formal commitment to the Covenant of Interdependence, membership of the SU global 'entity' by SU movements, and necessary changes to the constitution of Scripture Union International Council, will be developed for adoption by a General Assembly of the SU global movement in 2017.

ADOPTED BY THE MEETING
OF THE SCRIPTURE UNION
INTERNATIONAL COUNCIL AT
JACKSON'S POINT, ONTARIO,
CANADA, BY RESOLUTION,
THIS 22nd DAY OF
SEPTEMBER, 2014.
